ISSUE DATE: April 19, 1983

AUTHORITY: [32 CFR 199.4\(c\)\(3\)\(iv\)](#), [\(g\)\(45\)](#), [\(g\)\(47\)](#), and [32 CFR 199.5\(c\)](#)

I. CPT¹ PROCEDURE CODE RANGES

92502 - 92512, 92516, 92520, 92526, 92551 - 92597, 92601 - 92617, 92700

II. DESCRIPTION

Otolaryngology is that branch of medicine concerned with the screening, diagnosis and management of medical and surgical disorders of the ear, the upper respiratory and upper alimentary systems and related structures and the head and neck.

Audiology is the discipline involved in the prevention, identification and the evaluation of hearing disorders, the selection and evaluation of hearing aids, and the re-habilitation of individuals with hearing impairment. Audiological services, including function tests, performed to provide medical diagnosis and treatment of the auditory system.

III. POLICY

A. Otorhinolaryngology services, including audiological services are covered for the diagnosis and treatment of a covered medical condition.

B. Hearing aid services and supplies may be cost shared only for eligible beneficiaries through the Program for Persons with Disabilities on the basis of a hearing disability or of multiple disabilities, one of which involves a hearing disability.

C. Diagnostic analysis of cochlear implant with programming is covered for patients under 7 years of age, (92601, 92602) and age 7 years or older with programming (92603, 92604). See [Chapter 3, Section 17.2](#).

D. Evaluation for prescription of non-speech-generating augmentative and alternative communication device, including programming and modification, may be cost-shared only for eligible beneficiaries through the Program for Persons with Disabilities on the basis of a
