

CHAPTER 7
SECTION 3.6A

HOT THERAPY DEVICES FOR HOME USE

Issue Date: April 19, 1983

Authority: [32 CFR 199.4\(d\)\(3\)\(ii\)](#) and [32 CFR 199.5\(d\)\(7\)](#)

I. DESCRIPTION

Hot therapy devices are a thermostatically controlled unit or pad which provides continuous heat. The device is sold under various trade names such as: Aqua K® pad or Aqua control unit.

II. POLICY

Hot therapy devices are excluded from coverage since they do not meet the definition of durable medical equipment. They are not primarily medical in nature, even though used to control pain, do not preclude the use of analgesics in conjunction with the hot therapy, and ultimately, except for the convenience of the commercial devices, heating pads have been shown to serve the same purpose.
