

INSULIN INJECTORS WITHOUT A NEEDLE

Issue Date: December 29, 1982

Authority: [32 CFR 199.4\(d\)\(3\)\(iii\)](#)

I. PROCEDURE CODE

HCPSC Level II Code A4210

II. POLICY

Insulin injectors without a needle are covered provided medical documentation is submitted with the claim showing the medical need for the injector versus the ordinary syringe and needle. For example, the patient can no longer find an appropriate site for the injection.

III. POLICY CONSIDERATIONS

All claims for the device will receive medical review prior to payment.
