

Prime Service Area (PSA) Reduction in Fiscal Year (FY) 2014 Policies And Effective Dates

1.0 GENERAL

1.1 As of October 1, 2013, new TRICARE Prime enrollments will no longer be available to beneficiaries who reside outside of a TRICARE Third Generation (T-3) Prime Service Area (PSA), unless they waive their access to care standards. PSAs are geographic areas where TRICARE Prime is offered. PSAs were created to ensure medical readiness of the active duty force by augmenting the capability and capacity of Military Treatment Facilities (MTFs). Policy also allowed establishment of PSAs around the Base Realignment and Closure (BRAC) sites. The PSAs being eliminated (referred to as Transitional PSAs or TPSAs) were not built around MTFs or BRAC sites, but in other geographic locations under the prior TRICARE Next Generation (TNEX) contract. Some PSAs are also being reduced. The TPSAs were allowed to continue until all three regions were operating under the T-3 contracts.

1.2 TRICARE Prime enrollment for beneficiaries enrolled outside of a TRICARE T-3 PSA will be automatically terminated effective October 1, 2013 by the Defense Enrollment Eligibility Reporting System (DEERS), unless they meet exception criteria contained in the policy section below. Two notification letters will be mailed to beneficiaries potentially impacted during the February to July 2013 period fully explaining the PSA changes and their TRICARE health plan options as stated in [paragraph 2.9](#). The majority of the disenrolled beneficiaries will retain TRICARE Standard and TRICARE Extra coverage. Some of the disenrolled beneficiaries may be eligible to continue their Prime enrollment in a T-3 PSA or with one of the six Uniformed Services Family Health Plans (USFHPs). See [paragraph 2.4](#) for the impact on TRICARE Young Adult (TYA) Prime enrollees.

2.0 POLICY

2.1 Active Duty Services Members (ADSMs)

TRICARE enrollments for ADSMs, including activated National Guard and Reserve members, will not be affected by the PSA reductions. All ADSMs shall remain enrolled in TRICARE Prime or TRICARE Prime Remote (TPR), as appropriate.

2.2 Active Duty Family Members (ADFMs) (including ADFM TYA Prime Enrollees)

ADFMs (including ADFM TYA Prime enrollees) enrolled in TRICARE Prime and who reside outside of a T-3 PSA on September 30, 2013, will be grandfathered in TRICARE Prime starting October 1, 2013. They will remain enrolled in TRICARE Prime as long as they reside within 40 miles of the residence where they were originally granted grandfathered status and maintain eligibility as ADFMs. The Managed Care Support Contractors (MCSCs) must continue to have a Primary Care Manager (PCM) available for these beneficiaries and ensure all claims and benefits are administered

TRICARE Operations Manual 6010.56-M, February 1, 2008

Chapter 27, Section 1

Prime Service Area (PSA) Reduction in Fiscal Year (FY) 2014 Policies And Effective Dates

as TRICARE Prime. ADFMs shall remain enrolled in TPR for Active Duty Family Members (TPRADFM), as appropriate. The MCSCs will manage the grandfathered ADFMs as stated in this chapter.

2.2.1 Terms of Grandfathered Status. The ADFM must maintain a residence within 40 miles of the residence where they were originally granted grandfathered status in order to retain grandfathered status. Grandfathered ADFMs must be assigned a PCM. Grandfathered ADFMs may add or terminate enrollment of dependents like any other ADFM (marriage, birth, adoption, divorce, etc.). Dependents may live in a separate residence outside a T-3 PSA and still be grandfathered.

2.2.2 Grandfathered ADFMs lose their grandfathered status when they are:

- No longer TRICARE eligible,
- No longer residing within 40 miles of the residence where they were originally granted grandfathered status, or
- Change to retired status.

2.2.3 All previously grandfathered beneficiaries (those grandfathered prior to the T-3 contracts) lose their grandfathered status effective October 1, 2013. They will be managed like all other beneficiaries.

2.3 Retirees And Their Family Members

Retirees and their family members enrolled in TRICARE Prime (including retiree TYA Prime), who reside outside of a T-3 PSA, will be disenrolled effective midnight on September 30, 2013. Impacted retirees and their family members may re-enroll in TRICARE Prime at an MTF or with a network civilian PCM inside a T-3 PSA if they live within 100 miles of an available PCM in a T-3 PSA, submit a new request for enrollment, and waive both primary and specialty care travel time standards. They may also enroll in one of the six USFHPs, if available.

2.3.1 Retired beneficiaries who reside within a T-3 PSA, but are enrolled with a PCM located outside of a T-3 PSA will remain enrolled in TRICARE Prime. DEERS will not automatically disenroll these beneficiaries. The MCSCs shall notify these beneficiaries and assist them with selecting a PCM inside the T-3 PSA.

2.3.2 No retired beneficiary will be given grandfathered status.

2.4 TYA Enrollees

TYA Prime enrollments for beneficiaries who reside outside of a T-3 PSA will be processed according to their sponsor's status.

2.4.1 ADFM TYA Prime beneficiaries enrolled outside of a T-3 PSA will be grandfathered in TYA Prime effective October 1, 2013, and will be able to retain grandfathered status as long as they meet the following conditions:

- They reside within 40 miles of the residence where they or their sponsor was originally granted grandfathered status (see [paragraphs 2.2.1](#) and [2.2.2](#)),

- They remain eligible to purchase coverage, and
- Their sponsor's status does not change.

2.4.2 Retiree TYA Prime beneficiaries who reside outside of a T-3 PSA will be disenrolled effective midnight September 30, 2013, with no lockout applied ([Chapter 25, Section 1](#)), unless they are enrolled to a PCM within a T-3 PSA. All TYA eligible beneficiaries whose Prime enrollments are terminated must re-apply for coverage by completing a new TYA Application (DD Form 2947) to either enroll in TYA Standard or re-enroll in TYA Prime if they meet the requirements for retiree enrollment in TRICARE Prime contained in [paragraph 2.3](#).

2.5 Transitional Assistance Management Program (TAMP)

TAMP beneficiaries enrolled in Prime who reside outside of a T-3 PSA will be grandfathered and managed like all other ADFMs. Additionally, grandfathered Prime enrollees will continue to be grandfathered if they become TAMP eligible and enroll in TAMP, as long as they reside within 40 miles of the residence where they were originally granted grandfathered status. Grandfathered status will not be given to TAMP beneficiaries who move into an area that is not a T-3 PSA on/after October 1, 2013.

2.6 Transitional Survivors

Transitional Survivors are grandfathered like any other ADFM. However, when a surviving spouse's status changes from Transitional Survivor to Survivor, they will be disenrolled from TRICARE Prime and have to apply for re-enrollment as a Survivor, if TRICARE Prime is available within 100 miles of their residence. The current survivors are managed like any other retired beneficiary; they are not grandfathered.

2.7 TPR and TPRADFM

The current policy for TPR and TPRADFM does not change.

2.8 New Enrollments in TPSAs (all beneficiaries)

2.8.1 New TRICARE Prime enrollments in the TPSAs on or after April 1, 2013 will be limited. Beneficiaries who establish a residence in a TPSA prior to August 20, 2013 (20th of the month rule) can enroll in TRICARE Prime. Beneficiaries who do not establish residence in the TPSA cannot enroll with a TPSA PCM after April 1, 2013, unless they are attached to a grandfathered ADSM. Beneficiaries may "transfer" their TRICARE Prime enrollment to the TPSA if they establish residence in a TPSA before September 30, 2013.

2.8.2 ADFMs moving into an area that is not a T-3 PSA on or after October 1, 2013 will not receive grandfathered status. If eligible to do so, they may enroll in TPRADFM. No TRICARE Prime enrollments to providers in the disestablished TPSAs shall be permitted after September 30, 2013, either for ADFMs or retirees.

2.9 Notification and Disenrollment Letters

The MCSCs shall print and mail two notification letters between February and July 2013. TMA Beneficiary Education & Support Division (BE&SD) will provide the MCSCs and the Defense Manpower Data Center (DMDC) the notification letter templates for each beneficiary category. DMDC will provide a listing of the beneficiaries, to include their name and the demographic data needed, to complete the mailings. Copies of the letters and beneficiary listing will also be provided to the TRICARE Regional Offices (TROs). In August 2013, DMDC will mail disenrollment letters to the beneficiaries whose TRICARE Prime enrollment will be terminated effective October 1, 2013.

Note: All affected beneficiaries noted in the above paragraphs may also have the option to enroll in the USFHP, where available.

3.0 EFFECTIVE DATES

3.1 New enrollments in the TPSA are not allowed after August 20, 2013, for any beneficiary category (20th of the month rule), unless they qualify for TPR or TPRADFM.

3.2 All TPSAs terminate effective midnight September 30, 2013.

3.3 Effective October 1, 2013, PSAs will be maintained only at MTFs and designated BRAC sites.

- END -
