

Psychiatric Partial Hospitalization Program (PHP) Certification Process Before November 30, 2009, And Thereafter, For Only Freestanding PHPs

Issue Date: July 14, 1993

Authority: [32 CFR 199.6\(b\)\(4\)\(xii\)\(A\)](#) and [\(b\)\(4\)\(xii\)\(E\)](#)

Revision:

1.0 ISSUE

Process for Freestanding Psychiatric PHP Certification.

2.0 DESCRIPTION

A psychiatric PHPs is a treatment setting capable of providing an interdisciplinary program of medical therapeutic services at least three hours per day, five days per week, which may embrace day, evening, night and weekend treatment programs which employ an integrated, comprehensive and complementary schedule of recognized treatment approaches. Partial hospitalization is a time-limited, ambulatory, active treatment program that offers therapeutically intensive, coordinated, and structured clinical services within a stable therapeutic environment. Partial hospitalization is an appropriate setting for crisis stabilization, treatment of partially stabilized mental health disorders, and a transition from an inpatient program when medically necessary to avoid a serious deterioration in functioning.

3.0 POLICY

3.1 Freestanding PHPs must enter into a participation agreement, and be accredited and in substantial compliance with the **Comprehensive Accreditation Manual for Behavioral Health Care (CAMBHC)** of the Joint Commission (JC). This also applies to hospital-based PHPs providing care before November 30, 2009.

3.2 A complete application for certification as an authorized freestanding psychiatric PHP consists of an application and agreement signed and dated by the Chief Executive Officer (CEO) of the program.

4.0 EFFECTIVE DATE

September 29, 1993.
