TRICARE
MANAGEMENT ACTIVITY

MB&RB

**CHANGE 122
6010.55-M
OCTOBER 28, 2010**

**PUBLICATIONS SYSTEM CHANGE TRANSMITTAL
FOR
TRICARE REIMBURSEMENT MANUAL (TRM), AUGUST 2002**

The TRICARE Management Activity has authorized the following addition(s)/revision(s).

CHANGE TITLE: FISCAL YEAR (FY) 2011 RATES FOR HOSPICE CARE

CONREQ: 15179

PAGE CHANGE(S): See page 2.

SUMMARY OF CHANGE(S): This change updates the rates for hospice care for FY 2011 per the "CMS Manual System Transmittal 2004, Update to Hospice Payment Rates, Hospice Cap, Hospice Wage Index, and the Hospice Pricer for FY 2011," published July 23, 2010.

EFFECTIVE DATE: October 1, 2010.

IMPLEMENTATION DATE: Upon direction of the Contracting Officer.

**Ann N. Fazzini
Acting Chief, Medical Benefits and
Reimbursement Branch**

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002

CHAPTER 11, SECTION 1

HOSPICE REIMBURSEMENT - GENERAL OVERVIEW

b. The hospice will bill for its physician charges/services on a UB 92 using the appropriate CPT codes. Payments for hospice based physician services will be paid at 100 percent of the allowable charge (CMAC) and will be subject to the hospice cap amount; i.e., it will be figured into the total hospice payments made during the cap period.

c. Independent attending physician services are not considered a part of the hospice benefit and are not figured into the cap amount calculations. The provider will bill for these services on a CMS 1500 (08/05) using the appropriate CPT codes. These services will be subject to standard TRICARE reimbursement and cost-sharing/deductible provisions.

D. Authorized Providers

1. Social workers, hospice counselors, and home health aides which are not otherwise authorized providers of care under Basic Program may provide those services necessary for the palliation or management of terminally ill patients electing hospice coverage. These services are part of a package of services for which there is single all-inclusive rate for each day of care.

2. Hospice programs must be Medicare certified and meet all Medicare conditions of participation (42 CFR 418) in relation to patients in order to receive payment under the TRICARE program.

NOTE: The hospice program will be responsible for assuring that the individuals rendering hospice services meet the qualification standards specified in [Section 2](#). The contractor will not be responsible for certification of individuals employed by or contracted with a hospice program.

E. Implementing Instructions

Since this issuance only deals with a general overview of the hospice benefit the following cross referencing is provided to facilitate access to specific implementing instructions within Sections 1 through 4:

CHAPTER 11, SECTION 4

HOSPICE REIMBURSEMENT - GUIDELINES FOR PAYMENT OF DESIGNATED LEVELS OF CARE

c. The contractor will identify and review all inpatient claims for beneficiaries who have elected hospice care to make sure that for:

(1) Nonrelated hospital admissions, nonhospice TRICARE coverage is provided to a beneficiary only when hospitalization was for a condition not related to his or her terminal illness; and

(2) Conditions related to a beneficiary's terminal illness, the claims were denied.

NOTE: Many illnesses may occur when an individual is terminally ill which are brought on by the underlying condition of the patient. For example, it is not unusual for a terminally ill patient to develop pneumonia or some other illness as a result of his or her weakened condition. Similarly, the setting of bones after fractures occur in a bone cancer patient would be treatment of a related condition. The treatment of these related conditions is part of the overall hospice benefit, and as such, cannot be billed under TRICARE standard, except for services of an attending physician who is not employed by, or under contract with, the hospice program.

14. Frequency of hospice billing. While inpatient billing is generally deferred until discharge, hospice programs may bill patient stays requiring longer than 30 days in 30-day intervals. This requirement applies to both the institutional and hospice-based physician claims.

15. Updated Hospice Rates.

a. The rates in [Chapter 11, Addendum A \(FY 2009\)](#) will be used for payment of claims for services rendered on or after October 1, 2008, through September 30, 2009. The hospice cap amount applies to the cap year ending October 31, 2008.

b. The rates in [Chapter 11, Addendum A \(FY 2010\)](#) will be used for payment of claims for services rendered on or after October 1, 2009, through September 30, 2010. The hospice cap amount applies to the cap year ending October 31, 2009.

c. [The rates in Chapter 11, Addendum A \(FY 2011\) will be used for payment of claims for services rendered on or after October 1, 2010, through September 30, 2011. The hospice cap amount applies to the cap year ending October 31, 2010.](#)

B. Beneficiary cost-sharing. There are no deductibles under the hospice benefit. TRICARE pays the full cost of all covered services for the terminal illness, except for small cost-share amounts which may be collected by the individual hospice for outpatient drugs and biologicals and inpatient respite care.

NOTE: The collection of cost-share amounts are optional under the hospice program.

1. The patient is responsible for five percent of the cost of outpatient drugs, or \$5 toward each prescription, whichever is less. Additionally, the cost of prescription drugs (drugs or biologicals) may not exceed that which a prudent buyer would pay in similar

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002

CHAPTER 11, SECTION 4

HOSPICE REIMBURSEMENT - GUIDELINES FOR PAYMENT OF DESIGNATED LEVELS OF CARE

circumstances; that is, a buyer who refuses to pay more than the going price for an item or service and also seeks to economize by minimizing costs.

2. For inpatient respite care, the cost-share for each respite care day is equal to **five** percent of the amount TRICARE has estimated to be the cost of respite care, after adjusting the national rate for local wage differences.

EXAMPLE: Calculation of the cost-share for respite care in Denver, Colorado.

Wage Component Subject to Index	x Index for Denver	= Adjusted Wage Component
\$50.68	x 1.2141	= \$61.53
Adjusted Wage Component	+ Nonwage Component	= Adjusted Rate
\$61.53	+ \$42.95	= \$104.48
Adjusted/.95 (Rate to Include Rate Cost-Share)	x % Cost-Share	= Cost-Share Amount
\$104.48/.95	x 0.05	= \$5.50

3. The cost-sharing provisions established under [paragraph III.B.](#) are applicable to all beneficiaries regardless of the sponsor's status (active duty or retired).

4. Hospice cost-sharing is not subject to the catastrophic cap provisions since it is optional and already offset in the established national rates.

5. The amount of the individual cost-share liability for respite care during a hospice cost-share period may not exceed the Medicare inpatient hospital deductible applicable for the year in which the hospice cost-share period began. The individual hospice cost-share period begins on the first day an election is in effect for the beneficiary and ends with the close of the first period of 14 consecutive days on each of which an election is not in effect for the beneficiary.

EXAMPLE: Mr. Brown elected an initial 90-day period of hospice care. Five days after the initial period of hospice care ended, Mr. Brown began another period of hospice care under a subsequent election. Immediately after that period ended, he began a third period of hospice care. Since these election periods were not separated by 14 consecutive days, they constitute a single hospice cost-share period. Therefore, the maximum cost-share for respite care during the three periods of hospice care may not exceed the amount of the inpatient deductible for the year in which the first period began.

6. The TRICARE payment rates are not reduced when the individual is liable for coinsurance payments. Instead, when establishing the payment rates, TRICARE offsets the estimated cost of services by an estimate of average coinsurance amounts hospices collect.

CHAPTER 11
ADDENDUM A (FY 2011)

FISCAL YEAR 2011 RATES FOR HOSPICE CARE

The following national hospice rates are for care and services provided on or after October 1, 2010, through September 30, 2011. The hospice rates applicable to the above period are:

DESCRIPTION	RATE	WAGE COMPONENT SUBJECT	UNWEIGHTED AMOUNT
Routine Home Care	\$146.63	\$100.75	\$ 45.88
Continuous Home Care	\$855.79 full rate = 24 hours of care/\$35.66 hourly rate	\$ 588.01	\$267.78
Inpatient Respite Care	\$151.67	\$ 82.10	\$ 69.57
General Inpatient Care	\$ 652.27	\$ 417.52	\$234.75
Allow the provider to split bills if they span the effective date. Use the previous year's rates if the provider chooses not to split the bill.			
Hospice Cap Amount:	The latest hospice cap amount, for the cap year ending October 31, 2010, is \$23,874.98 .		

- END -

CHAPTER 11
ADDENDUM B (FY 2011)

HOSPICE RATE INFORMATION - FY 2011 HOSPICE WAGE INDEXES FOR URBAN AREAS

The following Hospice Indexes for Urban Areas (by CBSA) are for care and services provided on or after October 1, 2010.

				Madison, GA				

1 This column lists each CBSA area name and each county or county equivalent, in the CBSA area. Counties not listed in this table are considered to be rural areas. Wage index values for rural areas are found in [Addendum C \(FY 2011\)](#).

2 Wage index values are based on FY 2006 hospital cost report data before reclassification. These data form the basis for the pre-floor, pre-reclassified hospital wage index. The Budget Neutrality Adjustment Factor (BNAF) or the hospice floor is then applied to the pre-floor, pre-reclassified hospital wage index to derive the hospice wage index. Wage index values greater than or equal to 0.8 are subject to a BNAF. The hospice floor calculation is as follows: wage index values below 0.8 are adjusted to be the greater of (a) the 25% reduced BNAF OR (b) the minimum of the pre-floor, pre-reclassified hospital wage index value x 1.15, or 0.8000. For the FY 2011 hospice wage index, the BNAF was reduced by a total of 25%.

3 Because there are no hospitals in this CBSA, the wage index value is calculated by taking the average of all other urban CBSAs in Georgia.

1 This column lists each CBSA area name and each county or county equivalent, in the CBSA area. Counties not listed in this table are considered to be rural areas. Wage index values for rural areas are found in [Addendum C \(FY 2011\)](#).

2 Wage index values are based on FY 2006 hospital cost report data before reclassification. These data form the basis for the pre-floor, pre-reclassified hospital wage index. The Budget Neutrality Adjustment Factor (BNAF) or the hospice floor is then applied to the pre-floor, pre-reclassified hospital wage index to derive the hospice wage index. Wage index values greater than or equal to 0.8 are subject to a BNAF. The hospice floor calculation is as follows: wage index values below 0.8 are adjusted to be the greater of (a) the 25% reduced BNAF OR (b) the minimum of the pre-floor, pre-reclassified hospital wage index value x 1.15, or 0.8000. For the FY 2011 hospice wage index, the BNAF was reduced by a total of 25%.

3 Because there are no hospitals in this CBSA, the wage index value is calculated by taking the average of all other urban CBSAs in Georgia.

- 1 This column lists each CBSA area name and each county or county equivalent, in the CBSA area. Counties not listed in this table are considered to be rural areas. Wage index values for rural areas are found in [Addendum C \(FY 2011\)](#).
- 2 Wage index values are based on FY 2006 hospital cost report data before reclassification. These data form the basis for the pre-floor, pre-reclassified hospital wage index. The Budget Neutrality Adjustment Factor (BNAF) or the hospice floor is then applied to the pre-floor, pre-reclassified hospital wage index to derive the hospice wage index. Wage index values greater than or equal to 0.8 are subject to a BNAF. The hospice floor calculation is as follows: wage index values below 0.8 are adjusted to be the greater of (a) the 25% reduced BNAF OR (b) the minimum of the pre-floor, pre-reclassified hospital wage index value x 1.15, or 0.8000. For the FY 2011 hospice wage index, the BNAF was reduced by a total of 25%.
- 3 Because there are no hospitals in this CBSA, the wage index value is calculated by taking the average of all other urban CBSAs in Georgia.

- END -

¹ There are no hospitals in the rural areas of Massachusetts, so the wage index value used is the average wage index value for the contiguous counties.

² There are no rural areas in this state or district.

³ Wage index values are obtained using the methodology described in the notice.
