¹ Wage index values are based on FY 2004 hospital cost report data before reclassification. These data form the basis for the pre-floor, pre-reclassified hospital wage index. The budget neutrality adjustment or the hospice floor is then applied to the pre-floor, pre-reclassified hospital wage index to derive the hospice wage index. Wage index values greater than or equal to 0.8 are subject to a budget neutrality adjustment. The hospice floor calculation is as follows: wage index values below 0.8 are adjusted to be the greater of either (a) the budget neutrality adjustment OR (b) the minimum of the pre-floor, pre-reclassified hospital wage index value x 1.15, or 0.8000. For this revised FY 2009 hospice wage index, the budget neutrality adjustment factor was not reduced, in accordance with the American Recovery and Reinvestment Act, which was signed by President Obama on February 17, 2009.

² This column lists each CBSA area name and each county or county equivalent, in the CBSA area. Counties not listed in this table are considered to be rural areas. Wage index values for rural areas are found in Addendum C (FY 2009).

³ Because there are no hospitals in this CBSA, the wage index value is calculated by taking the average of all other urban CBSAs in Georgia.

¹ Wage index values are based on FY 2004 hospital cost report data before reclassification. These data form the basis for the pre-floor, pre-reclassified hospital wage index. ¹ Wage index values are based on FY 2004 hospital cost report data before reclassification. These data form the basis for the pre-floor, pre-reclassified hospital wage index. The budget neutrality adjustment or the hospice floor is then applied to the pre-floor, pre-reclassified hospital wage index to derive the hospice wage index. Wage index values greater than or equal to 0.8 are subject to a budget neutrality adjustment. The hospice floor calculation is as follows: wage index values below 0.8 are adjusted to be the greater of either (a) the budget neutrality adjustment OR (b) the minimum of the pre-floor, pre-reclassified hospital wage index value x 1.15, or 0.8000. For this revised FY 2009 hospice wage index, the budget neutrality adjustment factor was not reduced, in accordance with the American Recovery and Reinvestment Act, which was signed by President Obama on February 17, 2009.

² This column lists each CBSA area name and each county or county equivalent, in the CBSA area. Counties not listed in this table are considered to be rural areas. Wage index values for rural areas are found in Addendum C (FY 2009).

³ Because there are no hospitals in this CBSA, the wage index value is calculated by taking the average of all other urban CBSAs in Georgia.

2 There are no rural areas in this state.

3 Wage index values are obtained using the methodology described in the rule.

4 Revised to reflect a full (unreduced) Budget Neutrality Adjustment Factor (BNAF), in accordance with the American Recovery and Reinvestment Act, which was signed by President Obama on February 17, 2009.
