Addendum L (CY 2010)

Annual Home Health Agency Prospective Payment System (HHA PPS) Rate Updates - CY 2010

(Final payment amounts per 60-day episodes ending on or after January 1, 2010 and before January 1, 2011 - Continuing Calendar Year (CY) update.)

Home Health Agency Prospective Payment System (HHA PPS) - Determination of Standard HHA PPS amounts

Section 1895(b)(3)(B) of the Act, as amended by section 5201 of the Deficit Reduction Act (DRA), requires for CY 2010 that the standard prospective payment amount be increased by a factor equal to the applicable home health market basket update for HHAs.

National 60-Day Episode Payment Amounts - CY 2010

In order to calculate the CY 2010 national standardized 60-day episode, the CY 2009 national standardized 60-day episode payment of \$2,271.92 was increased to adjust for the 5% originally set aside for outlier payments and then reduced to account for the 2.5% outlier policy. This adjusted amount was then increased by the CY 2010 home health market basket update percentage of 2% and finally reduced by 2.75% to account for the change in case-mix that is not related to the real change in patient acuity levels as reflected in [Figure 12.L.2010-1](#):

National Per-Visit Amounts Used to Pay Low Utilization Payment Adjustments (LUPAs) and Compute Costs of Outlier - CY 2010

The CY 2009 national per-visit amounts were increased to adjust for the 5% originally set aside for outlier payments then reduced to account for the 2.5% outlier policy. These adjusted amounts were then increased by the CY 2010 home health market basket update percentage of 2%. National per-visit rates were not subjected to the nominal increase in case-mix because they were per-visit rates

and as such not subject to the case-mix adjustment. The final updated CY 2010 national per-visit rates per discipline are reflected in [Figure 12.L.2010-2](#):

Payment of LUPA Episodes

Payment for LUPA episodes changed in CY 2008 in that for LUPAs that occur as initial episodes in a sequence of adjacent episodes or as the only episode, an additional payment amount is added to the LUPA payment. The Figure 12-L-2010-2 per-visit rate noted above are before that additional payment is added to the LUPA payment, and are the per-visit rates paid to all other LUPA episodes and used in computing outlier payments. LUPA episodes that occur as the only episode or initial episode in a sequence of adjacent episodes are adjusted by adding an additional amount to the LUPA payment before adjusting for wage index. For CY 2009, that amount was \$90.48. This additional LUPA amount was updated in the same manner as the national standardized 60-day episode payment amount and the per-visit rates as is reflected in [Figure 12.L.2010-3](#).

Severity Non-Routine Medical Supplies (NRS) System

Beginning in CY 2008, to ensure that the variation in NRS is more appropriately reflected in the HHA PPS, the original portion (\$49.62) of the HHA PPS base rate that accounted for NRS, was replaced with a system that pays for NRS based on six severity groups. Payments for the NRS are computed by multiplying the relative weight for a particular severity level by the NRS conversion factor. The

CY 2009 NRS conversion factor was updated for CY 2010 by increasing it to adjust for the 5% originally set aside for outlier payments and then reducing it to account for the 2.5% outlier policy. The adjusted conversion factor was then increased by the CY 2010 home health market basket update percentage of 2% and finally reduced by 2.75% to account for the change in case-mix that is not related to the real change in patient acuity levels as reflected in [Figure 12.L.2010-4](#). The NRS conversion factor for CY 2010 is \$53.34.

The payment amounts, using the above computed CY 2010 NRS conversion factor (\$53.34), for the various severity levels based on the updated conversion factor are calculated in [Figure 12.L.2010-5](#).

Outlier Payments

Under the HHA PPS, outlier payments are made for episodes for which the estimated cost exceeds a threshold amount. The wage adjusted Fixed Dollar Loss (FDL) amount represents the amount of loss that an agency must bear before an episode becomes eligible for outlier payments. The FDL ratio which is used in calculating the FDL amount has been reduced from 0.89 to 0.67 for CY 2010.

Outcome and Assessment Information Set (OASIS)

OASIS-C is a modification to the OASIS that HHAs must collect in order to participate in the TRICARE program. Implementation of OASIS-C is required effective January 1, 2010.
