Individual providers within the clinic would then begin with 02 or 002 having the same alpha character(s) in the first position as the clinic record.

For all other non-institutional providers, the Provider Sub-Identifier must be four numeric digits.

Institutional Provider Sub-Identifiers are to be numeric digits and sequentially assigned within the TIN. For requirements on reporting institutional providers as outpatient hospital non-institutional providers, see Provider Sub-Identifier Example 2.

  - a. The provider is located in a foreign country and does not have a TIN. If a foreign provider has a TIN, it is to be used. Otherwise, an APN is used regardless of whether the claim is to be paid or denied.
  - b. The provider does not meet TRICARE certification requirements or the contractor does not have substantial evidence that the provider meets the TRICARE certification requirements.
  - c. The contractor has substantial evidence that the provider meets the TRICARE certification requirements. In this case, the payment must be made to the beneficiary.
2. When neither the EIN nor the SSN is available for the provider and the provider is located in your contract area<sup>1</sup>.
  - a. If the provider is located in a foreign country, the field is coded in the following manner.
 

**Position 1 through 3** - The three character alpha abbreviation of the country in which the provider or institution is located ([Addendum A](#)).

**Position 4 through 9** - A six digit sequential contractor assigned number. These numbers are to be permanently assigned to the provider.

**Example:** The first provider from Mexico will be coded MEX000001.

**Position 1 through 3** - The two character abbreviation of the state (left justify and blank fill) in which the provider or facility is located ([Addendum B](#)).

**Position 4 through 9** - A six digit sequential contractor assigned number.

**Example:** The first provider from Maryland would be coded MD b 000001. Refer to instruction below, for exception.
  - c. For ECHO, if the TED record is for transportation via a POV, assign a TIN of all nines and do not submit a provider record.
3. If it is necessary to assign a number for a provider that is outside of your contract area, the number is assigned following all the above rules except the fourth high order digit must be an "A".
 

**Example:** If a beneficiary, whose care when traveling outside of your area is your responsibility, received care in Mexico, it will be coded MEXA00001.

**NOTES AND SPECIAL INSTRUCTIONS:**

<sup>1</sup> Claims for care rendered by an institutional provider located in the United States must be processed with a valid EIN. Contractor-assigned provider numbers will not be allowed.
