3.6.2 New Hospitals and Units

3.6.2.1 The inpatient mental health per diem payment system has a special retrospective payment provision for new hospitals and units. A new hospital is one which meets the Medicare requirements under Tax Equity and Fiscal Responsibility Act (TEFRA) rules. Such hospitals qualify for the Medicare exemption from the rate of increase ceiling applicable to new hospitals which are DRG-exempt psychiatric hospitals. Any new hospital or unit that becomes a higher volume hospital or unit may additionally, upon application to the appropriate contractor, receive a retrospective adjustment. The retrospective adjustment shall be calculated so that the hospital or unit receives the same government share payments it would have received had it been designated a higher volume hospital or unit for the federal fiscal year in which it first had 25 or more TRICARE mental

health discharges. This provision also applies to the preceding fiscal year (if it had any TRICARE patients during the preceding fiscal year). A retrospective payment shall be required if payments were originally made at a lower regional per diem. This payment will be the result of an adjustment based upon each claim processed during the retrospective period for which an adjustment is needed, and will be subject to the claims processing standards.

3.6.2.2 By definition, a new hospital is an institution that has operated as the type of facility (or the equivalent thereof) for which it is certified in the Medicare and or TRICARE programs under the present and previous ownership for less than three full years. A change in ownership in itself does not constitute a new hospital.

3.6.2.3 Such new hospitals must agree not to bill beneficiaries for any additional cost-share beyond that determined initially based on the regional rate.

3.6.3 Request for a Review of Higher or Lower Volume Classification

Any hospital or unit which TMA improperly fails to classify as a higher or lower volume hospital or unit may apply to the appropriate contractor for such a classification. The hospital or unit shall have the burden of proof.

3.7 Payment for Hospital Based Professional Services

3.7.1 Lower Volume Hospitals and Units. Lower volume hospitals and units may not bill separately for hospital based professional services; payment for those services is included in the per diems.

3.7.2 Higher Volume Hospitals and Units. Higher volume hospitals and units, whether they billed separately for hospital based professional services or included those services in the hospital's or unit's charges, shall continue the practice in effect during the period July 1, 1987 to May 31, 1988 (or other data base period used for calculating the hospital's or unit's per diem), except that any such hospital or unit may change its prior practice (and obtain an appropriate revision in its per diem) by providing to the appropriate contractor notice of its request to change its billing procedures for hospital-based professional services.

3.8 Leave Days

3.8.1 No Payment. The government shall not pay (including holding charges) for days where the patient is absent on leave (including therapeutic absences) from the specialty psychiatric hospital or unit. The hospital must identify these days when claiming reimbursement.

3.8.2 Does Not Constitute a Discharge/Do Not Count Toward Day Limit. The government shall not count a patient's departure for a leave of absence as a discharge in determining whether a facility should be classified as a higher volume hospital.

3.9 Exemptions from the TRICARE Inpatient Mental Health Per Diem Payment System

3.9.1 Providers Subject to the DRG-Based Payment System. Providers of inpatient care which are neither psychiatric hospitals nor psychiatric units as described earlier, or which otherwise

TRICARE Reimbursement Manual 6010.58-M, February 1, 2008

Chapter 7, Section 1

Hospital Reimbursement - TRICARE Inpatient Mental Health Per Diem Payment System

qualify under that discussion, are exempt from the inpatient mental health per diem payment system.

3.9.2 Services Which Group into Mental Health DRG. Admissions to psychiatric hospitals and units for operating room procedures involving a principal diagnosis of mental illness (services which group into DRG 424 prior to October 1, 2008, or services which group into DRG 876 on or after October 1, 2008) are exempt from the per diem payment system. They will be reimbursed on the basis of billed charges.

3.9.3 Non-Mental Health Procedures. Admissions for non-mental health procedures that group into non-mental health DRG, in specialty psychiatric hospitals and units are exempt from the per diem payment system. They will be reimbursed on the basis of billed charges.

3.9.4 Sole Community Hospital (SCH). Any hospital which has qualified for special treatment under the Medicare Prospective Payment System (PPS) as a SCH and has not given up that classification is exempt. For additional information on SCHs, refer to [Chapter 14, Section 1](#).

3.9.5 Hospital Outside the 50 States, the District of Columbia, or Puerto Rico. A hospital is exempt if it is not located in one of the 50 states, the District of Columbia, or Puerto Rico.

3.9.6 Billed charges and set rates. The allowable costs for authorized care in all hospitals not subject to the DRG-based payment system or the inpatient mental health per diem payment system shall be determined on the basis of billed charges or set rates.

that are unnecessary in the efficient delivery of services covered by the program.

4.3.1 TMA shall calculate an overall inpatient CCR and overall outpatient CCR, obtained from data on the hospital's most recently filed Medicare cost report as of July 1 of each year.

4.3.2 The inpatient and outpatient CCRs are calculated using Medicare charges, e.g., Medicare costs for outpatient services are derived by multiplying an overall hospital outpatient CCR (by department or cost center) by Medicare charges in the same category.

4.3.3 The following methods are used by TMA to calculate the CCRs for CAHs. The worksheet and column references are to the CMS Form 2552-96 (Cost Report for Electronic Filing of Hospitals).

INPATIENT CCRs

Numerator	Medicare costs were defined as Worksheet D-1, Part II, line 49 MINUS (worksheet D, Part III, Column 8, sum of lines 25-30 PLUS Worksheet D, Part IV, line 101).
------------------	---

Denominator	Medicare charges were defined as Worksheet D-4, Column 2, sum of lines 25-30 and 103.
--------------------	---

OUTPATIENT CCRs

Numerator	Outpatient costs were taken from Worksheet D, Part V, line 104, the sum of Columns 6, 7, 8, and 9.
------------------	--

Denominator	Total outpatient charges were taken from the same Worksheet D, Part V, line 104, sum of Columns 2, 3, 4, and 5 for the same breakdowns.
--------------------	---

4.3.4 To reimburse the vast majority of CAHs for all their costs in an administratively feasible manner, TRICARE will identify CCRs that are outliers using the method used by Medicare to identify outliers in its Outpatient Prospective Payment System (OPPS) reimbursement methods. Specifically, Medicare classifies CCR outliers as values that fall outside of three standard deviations from the geometric mean. Applying this method to the CAH data, those limits will be considered the threshold limits on the CCR for reimbursement purposes. For Fiscal Year (FY) 2010, this calculation resulted in an inpatient CCR cap of 2.31 and outpatient CCR cap of 1.26. For FY 2011, the inpatient CCR cap is 2.57 and the outpatient CCR cap is 1.31. **For FY 2012, the inpatient CCR cap is 2.46 and the outpatient CCR cap is 1.32.** Thus, for FY 2012, TRICARE will pay the lesser of 2.46 multiplied by the billed charges or 101% of costs (using the hospital's CCR and billed charges) for inpatient services and the lesser of 1.32 multiplied by the billed charges or 101% of costs for outpatient services. Following is the two step comparison of costs.

Step 1: Inpatient, pay the lesser of:

FY cap x billed charges (minus non-covered charges) OR
1.01 x (hospital-specific CCR x billed charges (minus non-covered charges))

Step 2: Outpatient, pay the lesser of:

FY cap x billed charges OR
1.01 x (hospital-specific CCR x billed charges)

4.3.5 TMA shall provide a list of CAHs to the Managed Care Support Contractors (MCSCs) with their corresponding inpatient and outpatient CCRs by November 1 each year. The CCRs shall be updated on an annual basis using the second quarter CMS Hospital Cost Report Information

TRICARE Reimbursement Manual 6010.58-M, February 1, 2008

Chapter 15, Section 1

Critical Access Hospitals (CAHs)

System (HCRIS) data. The updated CCRs shall be effective as of December 1 of each respective year, with the first update occurring December 1, 2009.

4.3.6 TMA shall also provide the MCSCs the State median inpatient and outpatient CAH CCRs to use when a hospital specific CCR is not available.

4.4 CAH Listing

4.4.1 TMA will maintain the CAH listing on the TMA's web site at <http://www.tricare.mil/hospitalclassification/>, and will update the list on a quarterly basis and will notify the contractors by e-mail when the list is updated.

4.4.2 For payment purposes for those facilities that were listed on both the CAH and Sole Community Hospital (SCH) lists prior to June 1, 2006, the contractors shall use the implementation date of June 1, 2006, as the effective date for reimbursing CAHs under the DRG-based payment system. The June 1, 2006, effective date is for admissions on or after June 1, 2006. For admissions prior to June 1, 2006, if a facility was listed on both the CAH and SCH lists, the SCH list took precedence over the CAH list. The contractors shall not initiate recoupment action for any claims paid billed charges where the CAH was also on the SCH list, prior to the June 1, 2006, effective date. For admissions on or after December 1, 2009, CAHs are reimbursed under the reasonable cost method.

4.4.3 The effective date on the CAH list is the date supplied by the Centers for Medicare and Medicaid Services (CMS) upon which the facility began receiving reimbursement from Medicare as a CAH, however, if a facility was listed on both the CAH and SCH lists prior to June 1, 2006, the effective date for TRICARE DRG reimbursement is June 1, 2006. For admissions on or after December 1, 2009, CAHs are reimbursed under the reasonable cost method.

4.4.4 After June 1, 2006, if a CAH is added or dropped off of the list from the previous update, the quarterly revision date of the current listing shall be listed as the facility's effective or termination date, respectively.

4.4.5 If the contractor receives documentation from a CAH indicating their status is different than what is on the CAH listing on TMA's web site, the contractor shall send the information to TMA, Medical Benefits & Reimbursement Branch (MB&RB) to update the listings on the web.

4.5 CAHs participating in the demonstration in the state of Alaska, from July 1, 2007 through November 30, 2009, are exempt from the DRG-based payment system and are subject to the payment rates under the TRICARE Demonstration Project. For information on the demonstration, refer to the TRICARE Operations Manual (TOM), [Chapter 18, Section 7](#).

4.6 Prior to December 1, 2009, the contractor's shall update their institutional provider files to include CAH's and their Indirect Medical Education (IDME) factors, if applicable, as the CMS Inpatient Provider Specific File used to update the annual DRG Provider File does not contain CAH information.

4.7 Billing and Coding Requirements

4.7.1 The contractors shall use type of institution 91 for CAHs.

TRICARE Reimbursement Manual 6010.58-M, February 1, 2008

Chapter 15, Section 1

Critical Access Hospitals (CAHs)

- 4.7.2** CAHs shall utilize bill type 11X for inpatient services.
- 4.7.3** CAHs shall utilize bill type 85X for all outpatient services including services approved as Ambulatory Surgery Center (ASC) services.
- 4.7.4** CAHs shall utilize bill type 12X for ancillary/ambulance services.
- 4.7.5** CAHs shall utilize bill type 14X for non-patient diagnostic services.
- 4.7.6** CAHs shall use bill type 18X for swing bed services.

4.8 Beneficiary Liability

Applicable TRICARE deductible and cost-sharing provisions apply to CAH inpatient and outpatient services.

5.0 EFFECTIVE DATE

Implementation of the CAH reasonable cost methodology is effective for admissions and outpatient services occurring on or after December 1, 2009.
