TRICARE
MANAGEMENT ACTIVITY

MB&RB

**CHANGE 8
6010.58-M
JUNE 3, 2009**

**PUBLICATIONS SYSTEM CHANGE TRANSMITTAL
FOR
TRICARE REIMBURSEMENT MANUAL (TRM)**

The TRICARE Management Activity has authorized the following addition(s)/revision(s) to the 6010.58-M, issued February 2008.

CHANGE TITLE: NATIONAL PER DIEMS FOR UNIQUE ADMISSIONS

PAGE CHANGE(S): See page 2.

SUMMARY OF CHANGE(S): This change adds separate national per diem amounts for unique admissions that occur outside of the 50 United States and the District of Columbia. This change brings this manual up-to-date with published Change 90 (February 4, 2009) to the August 2002 TRICARE Reimbursement Manual 6010.55-M.

EFFECTIVE DATE: November 1, 2008.

IMPLEMENTATION DATE: Upon direction of the Contracting Officer.

for Cynthia A. Di Lorenzo
Reta Michak

**Chief, Office of Medical Benefits and
Reimbursement Branch**

TRICARE Reimbursement Manual 6010.58-M, February 1, 2008
Chapter 1, Section 34
Hospital Inpatient Reimbursement In Locations Outside The 50 United
States And The District Of Columbia

is based on a large array of goods and services or market basket within the specific country which is then standardized and weighted to a U.S. standard and currency. The World Bank defines PPP conversion factor as: "Number of units of a country's currency required to buy the same amount of goods and services in the domestic market that a U.S. dollar would buy in the U.S." The use of the country specific index enables a conversion and therefore creates parity between the U.S. and the specific country in the purchasing of the same amount and type of medical services. TRICARE is utilizing the World Bank's International Comparison Program country specific index as provided in [Figure 1.34-1](#).

4.4 Institutional Payment Rates

4.4.1 The Policy and Statistical Analysis Services contractor shall annually calculate the U.S. National **per diems** and provide them electronically to the TRICARE Management Activity (TMA), which will be included in [Figure 1.34-2](#) and [Figure 1.34-3](#). The provided data will contain the ICD-9-CM **code, code** range, or groups of related diagnosis codes. The first three digits of the principal ICD-9-CM diagnosis code determines placement into a diagnosis group as well as a reimbursement group. The data will also contain a description of the diagnosis ICD-9-CM groups. The rate for each group is the average U.S. allowed amounts per day in short-stay hospitals for all ICD-9-CM diagnoses in the particular group plus an add-on to reimburse for capital costs. The add-on percentage will be determined by the above contractor using the U.S. data and the amount will be built-in into the per diem rate for each group. The rate file will also designate the effective date of the per diem rates. The above contractor shall also communicate the country specific factor to TMA annually or as dictated by the World Bank's International Comparison Program or as determined by TMA. The above contractor shall also provide the country specific adjusted per diem files, electronically to TMA, which will be provided to the overseas claims processor by TMA at least annually, or as specifics dictate. The adjusted per diems will be available at: <http://www.tricare.mil/tma/foreignfee/>.

4.4.2 The rate setting methodology was developed as follows:

4.4.2.1 A rate setting methodology utilizing the first three digits of a primary diagnosis code.

4.4.2.2 Eighteen diagnosis groupings were defined and designed based on the groupings and definitions contained in the ICD-9-CM publication. For example, Group 1 is defined as ICD-9-CM codes 001 to 139, or Infectious and Parasitic Diseases. The first three digits of a primary diagnosis code are utilized for placement into one of the eighteen groups.

4.4.2.3 The payment rate for each of the 18 diagnostic groups was the average allowed amount per day over all the ICD-9-CM codes in a diagnosis group, based upon the claim's primary diagnosis, plus an add-on to reimburse for capital costs.

4.4.2.4 Group payments were calculated by dividing total allowed charges by total inpatient days for the group.

4.4.2.5 Once the 18 groupings were defined, certain unique admissions were identified for reimbursement separately from the 18 groupings. These are listed in [Figure 1.34-3](#).

4.5 Payments

4.5.1 General. The per diem group payment rate will be based on the first three digits of the primary diagnosis code. The TRICARE allowable charge and amount reimbursed for hospital inpatient care shall be the lesser of:

- Actual billed charges for hospital inpatient care; or
- The TRICARE U.S. National per diem rate multiplied by the country specific index factor is the country specific hospital per diem. This per diem is multiplied by the number of covered days of hospital inpatient care and equals the maximum amount allowed by TRICARE to be paid for the episode on inpatient care.

4.5.2 Only the primary diagnosis code, on the date of admission, will be taken into consideration when determining the group for a payment rate. Only one payment group can be assigned to each independent episode of inpatient care. Each institutional claim for service reimbursement must contain a valid ICD-9-CM code or narrative description of services, and must be used to represent the primary diagnosis for inpatient admission. If a valid diagnosis code or narrative description is not supplied by the institutional provider it must be developed and supported by the overseas claims processor. Development of an institutional claim should contain the necessary elements to satisfy TRICARE Encounter Data (TED) requirements.

4.6 Beneficiary - Change in Eligibility Status

Since payment is on a per diem basis, the hospital claim for services shall be paid for the days the beneficiary is TRICARE eligible and denied for the days the beneficiary is not TRICARE eligible.

4.7 Beneficiary Cost-Shares

Inpatient cost-shares as contained in [Chapter 2, Section 1](#), for non-Diagnosis Related Group (DRG) facilities shall be applicable to TRICARE's hospital allowable charge.

4.8 Updating Payment Rates

Additions, changes, revisions or deletions to the ICD-9-CM codes or country specific index shall be communicated to the overseas claims processor and be considered as routine updates to this payment system and processed under TRICARE Operations Manual (TOM), [Chapter 1, Section 4, paragraph 2.4](#).

4.9 The overseas claims processor shall maintain the current year and two immediate past years' iterations of the TRICARE U.S. National per diems and the country specific index factors.

4.10 There is no TRICARE waiver process applicable to hospitals in specified locations outside the 50 United States and the District of Columbia for institutional inpatient rates.
